	BioThrax Product Safety Data Sheet	
	SDS040017 v 2.0	Effective: 09 Oct 2023

**Product Identification:** BioThrax® (Anthrax Vaccine Adsorbed)

**Regulatory Information:**

This product is non-hazardous and exempt from the requirements of the OSHA Hazard Communication Standard, 29 CFR 1910.1200. BioThrax® is licensed by the Food and Drug Administration (FDA) and authorized by the Paul-Ehrlich-Institut (PEI) for use in humans.

**Physical and Chemical Properties:**

A sterile, milky-white suspension.

**Product Composition:**

BioThrax contains no dead or live bacteria.

BioThrax is a non-live anthrax vaccine which contains no infectious agents. This vaccine cannot cause anthrax disease.

**Product Components:**

BioThrax does not pose a physical or health hazard at the component percentages present in the product based on the guidelines established by the OSHA Hazard Communication Standard

**Handling and Storage:**

No special controls or personal protection equipment (PPE) required.

Storage – BioThrax should be stored between 2°C to 8°C. DO NOT FREEZE.

First Aid Measures:

Eye Contact - In the event of accidental eye contact, flush eye with water for a minimum of 15 minutes.

Skin Contact - In the event of accidental contact, wash with soap and water.

**Fire-Fighting Measures:**

There are no known fire or explosion hazards for BioThrax, although the cardboard packaging is combustible.

**Disposal Considerations:**

The disposal method for rejected, expired or returned products must ensure that they cannot be resold or reused.

Observe all local, state, and federal regulations when disposing of this product.

For small spills, sweep up broken vials and place in puncture resistant container. Soak up spill with paper towels and dispose of in waste container. Water may be used for cleanup operations.

For large spills, take precautions to prevent entry into waterways, sewers or surface drainage systems. Water can be used for cleanup operations.
